LUCKY BILL ANNUAL NO. 2.

Hatch Forces Also Elected a Board and Claim It Is Only Legal One.

It appeas that there were two annual meetings of the Lucky Bill com-pany on Wednesday, instead of one, and Attorney F. A. Sweet insists that what he terms the Bamberger gathering was a minority meeting, as only a little more than 43,000 shares were represented, while the Hatch meeting, so called for distinguishing purposes, was represented by 56,000 shares.

Mr. Sweet reports that at the latter meeting Joseph Hatch was elected president; J. G. Felt, vice president; Elias A. Smith, treasurer; F. A. Sweet, sceretary; these, with James H. Moyle, Patrick Flizpatrick and A. R. Barnes, constituting what he declares will soon be recognized as the legal board of trustees of the company.

Recently a decision was rendered in the Third district court in favor of Hatch and others, by which they secured judgment against the company for 36,000 shares of stock alleged to have been unlawfully sold for assessments and directing that new stock to the amount be issued to plaintiff. court and these, with additional in-dividual holdings sufficient to make the 56,000 shares, was voted at the Hatch meeting.

Regarding the status of the suit, Mr. Sweet said that should the state supreme court affirm the decision of the Mexican lower tribunal, and he was more than confident that such would be the case, the Hatch forces would be in control and the Bamberger board would be out in the cold.

Stocks in London. New York, June 11 .- The Commercial

New York, June 11.—The Commercial Advertiser's London financial cablegram: Stocks were idle all round. The American department alone showed backbone, others dragging. Several failures are possible tomorrow, but they will be small even if they occur. Consols closed at 96 15-16, after having sold at 96%. Dealings in Americans were restricted locally, but New York orders to be executed here were more than for some time. The market seemed broad. The close was good on the crop reports. GRAIN AND PROVISIONS.

Chicago, June 11.—Other speculative markets had to drop back and give wheat place today. A good array of bullish influences was at work. Cables were higher, there was strength in the renewal of wet weather in the central and northwestern states, but most important was the government crop report. This document piaced June condition on winter wheat at 76.1 as compared to May's 76.4 when an even 80 had been expected, and the spring wheat area was reduced by 2.511.000 acres from last year. Northwestern receipts were small and although there seemed to be little effect on that score, early. Minneapolis eventually led the bulge with sharp advances.

There was an increased volume of outside business, largely on the buying side. France was bidding for stuff and the cable strength from Liverpool was largely due to the bullish French situation. July wheat opened 10.72%. Liquidation for profits was in order and prices tumbled back to 71%, but closed strong and firm, 30% cent higher, at 71%. Much of the buying was of the der and prices tumbled back to 71%, but closed strong and firm, %21½ cent higher, at 71%. Much of the buying was of the best character. Corn showed good early strength when all markets were on the upturn. Support was necessary, however, when wheat broke, Weather conditions favored better prices, as did the smaller receipts. July closed firm, % cents up, at 63%.

Oats were firm. July closed % cents up at 394.

Part of the looked for reaction after Part of the looked for reaction after the persistent manipulation of provisions by packers came today. After yesterday's remarkable advance of 37½ cents for July ribs the inside crowd led by the packers unloaded on the shorts and a break of 37½ cents followed.

Commission houses advise their clients that the stuff is top heavy, but at the same time they say the packers can put the price any place that suits their interests. July pork closed 2½ cents lower, lard a shade down and ribs 37½ cents lower.
